ABOUT

Enthusiastic and detail-oriented Python developer with a solid foundation in software development, honed through a 6-month internship experience. Proficient in Python programming and familiar with web frameworks like Django, I have successfully contributed to the development of dynamic web applications. My skills in Object-Oriented Programming, database management using SQL, and front-end development with HTML and CSS allow me to create seamless user experiences.

EDUCATION

Bachelor of Computer Application
Annamalai University

2021 - 2024

INTERNSHIP

Python , Irohub Infotech Kochi   **Dec 2023 - Jun 2024**

- Developed web applications using Python and Django, implementing robust back-end functionalities and enhancing user experience.
- Applied Object-Oriented Programming principles in Python to create modular and maintainable code structures.
- Managed databases using SQL, performing data retrieval and manipulation to support application features.
- Designed and implemented user interfaces with HTML and CSS, ensuring responsiveness and usability across devices.
- Utilized advanced Python libraries, NumPy and Pandas, for data analysis and manipulation, improving project efficiency.
- Created graphical user interfaces with Tkinter, focusing on user interaction and visual appeal.
- Leveraged regular expressions for data validation and pattern matching, enhancing data processing accuracy.

SKILLS

- Python
- HTML
- Angular JS
- MySQL
- Regular Expressions
- Problem Solving
- Django
- CSS
- REST API
- Tkinter
- Git
- Attention to Detail

ADDITIONAL INFORMATION

- **Project :** Talk Arena
- **Languages :** English, Malayalam, Tamil
- **Certifications :** Python Django (Irohub Infotech, Kochi)
- **Reference :** Thasna Sherin A K (Python Developer cum Trainer)thasnasherin.ak@irohub.com
